WE KEEP LIFE FLOWING®

BE SAFE. SLOW DOWN IN WORK ZONES.

Your safety, as well as the safety of your neighbors and our workers, is important to us! We work hard to keep our job sites safe, and we appreciate your effort to slow down and use caution around the construction site.

For emergencies, we're available 24/7.

11-2022

WE'RE INVESTING \$1.2 MILLION IN MILLBURN

Main replacement project to start soon

New Jersey American Water is preparing to replace approximately 1,600 feet of aging 16-inch cast iron water main that was installed in the 1930s with new 20-inch ductile iron main along **Whittingham Terrace** (from Ridgewood Road to Millburn Avenue). The project also includes replacing two fire hydrants along the pipeline route.

The project represents a critical investment for the company in support of our commitment to provide customers with safe, reliable water service.

PROJECT START/ END AND WORK HOURS

Weather permitting, our local, qualified contractor, CRJ Contracting Inc. Inc. is scheduled to begin work on or about November 28 and expects to be completed within approximately one month. Work hours will be from 9 a.m. to 5 p.m. Monday through Friday.

Work outside of these hours is not expected unless required to maintain project schedule. Final street restorations will be completed in spring of 2023.

PROJECT OVERVIEW AND WHAT YOU CAN EXPECT

- **Install, disinfect, test and place new main into service.** While we interconnect the new main to distribution system, customers may experience a temporary service interruption. Customers may also experience a slight discoloration of water. If this happens, run the water until it is clear.
- **Perform final paving and any restoration of concrete, driveway, grass and landscaping.**

Our crews will work as quickly as possible to shorten the length of these temporary inconveniences. We appreciate your patience and understanding during this project.

TRAFFIC FLOW AND ACCESSIBILITY

Sections of street where construction is taking place may be closed during work hours. All traffic control will be coordinated with local police or road authorities. Motorists should use caution, obey traffic signs and follow detour routes when driving in the area.

NOISE

As with any construction project, some noise will be unavoidable with this project. We apologize for any inconvenience, and appreciate your understanding and cooperation.

SITE MAINTENANCE

The project site will be maintained and cleaned each day before contractors have completed work.

HOW SHOULD WE REACH YOU IN AN EMERGENCY?

New Jersey American Water uses a high-speed mass-notification system to keep customers informed about water-related emergencies and alerts. Log on to our online self-service portal (mywater.amwater.com) to make sure your contact information is up-to-date. While you're there, tell us how you prefer to receive our notifications: by phone, text and/or email.*

**Standard text, data and phone rates may apply.*
